

December 4, 2019

NovAtel® is pleased to announce the 7.07.04 firmware release for our OEM7® and PwrPak7® products. Our OEM7 technology provides exceptional positioning availability using signals from all constellations and frequencies to deliver reliable autonomy and positioning.

The 7.07.04 release is available to support the new PwrPak7-E2 and PwrPak7M products and their variants.

A full listing of all changes is available in the “What’s New” document that is included with the firmware download.
